Thank you for purchasing the

Add-on Solar Panel for the **ReVIVE™ Series Solar ReStore™**

Double your solar charging power with this add-on 120mA panel – made specifically to work with the ReVIVE Solar ReStore battery pack. Just plug this **Add-on Solar Panel** into the MicroUSB charging port of the **Solar ReStore**, place it in the sun and let the power flow. Maximize your **Solar ReStore's** charging potential!

What's in the box?

- a - Add-on solar panel
- b - Window suction mount

Product Diagram

- 1 - MicroUSB connector

Operating Instructions

Solar Charging

Solar charging can be done by following the steps below:

- 1 - On your **Solar ReStore**, move the *Control switch* to the **OFF** position.
- 2 - Connect the (a) *Add-on solar panel* to the *IN* port using the (1) *MicroUSB* connector.
- 3 - Place the **Solar ReStore** and (a) *Add-on solar panel* in **direct sunlight** for 8 hours to fully charge the 1500mAh internal battery. You will notice that the **Solar ReStore's Status LED** glows red to indicate charging.

Troubleshooting

The Solar ReStore is not charging my device by solar power:

- The **Solar ReStore** is not designed as an ACTIVE solar charger. You must first place the **Solar ReStore** in direct sunlight for 2-8 hours, and please be sure that the *Control switch* is in the **OFF** position. After it has charged in direct sunlight, you should then move the *Control switch* to the **ON** position and connect your device to the **Solar ReStore** for a battery boost.
- Please make sure that the *Flexible LED* light is not on.
- Please make sure the *Control Switch* is in the **OFF** position while solar charging.

Cautions

- Keep in a safe place free from dust, liquid and extreme temperatures
- Only use this device with the recommended power sources
- Keep out of reach of small children
- When not in use, please disconnect from power sources
