Thank you for purchasing the
ReVIVE™ Series Solar ReStore™ XL+ Battery Pack
This easy-to-use, multi functional charger lets you take charging on-the-go! It's equipped with a universal USB charging port and a powerful internal backup battery that stores power for when you are away from outlets. Charge it up by the power of the Sun, AC or USB. The 6,000mAh battery stores enough power to fully charge several smartphones, MP3 players or provide back-up power to tablets. It's also designed with a convenient, LED flashlight! Don't get stuck with a dead battery. Breathe some battery life into your mobile devices with the Solar ReStore XL+!

Press 1 time	Capacity indicator
Press 2 times	Flashlight
Press 3 times	Pulse
Press + hold	S.O.S.

Checking the Solare ReStore XL+ and Add-on Panel Connection

To verify that the Solar ReStore XL+ and detachable solar panel are properly connected, place in direct sunlight.

Capacity indicator lights will flash and the LED indicator will illuminate red.
Press the connection test button on the panel link. The capacity indicator lights will stop flashing and the LED indicator on the panel link will turn off. *You can also refer to the instruction label on the panel link.

Charging Your Mobile Device

Plug your devices USB charging cable into the (lightning bolt) USB OUT port and the other end into your device. The Solar ReStore XL+ will begin to charge automatically.

To detach and attach the solar panel, refer to the label on the Detachable solar panel.

For best results, charge Solar ReStore XL+ in direct sunlight. The Solar ReStore XL+ will charge at a slower rate if not placed in direct sunlight. 580mA is the maximum solar charging rate.

Do not use the carabiner for climbing.
